Technology for cable laying and overhead power lines

• Energy cable laying up to 680 kV
• Fibre optic, mini and micro cables
• Cable winding and length measuring
• Overhead line construction up to 110 kV
• Seminars and product instructions

Moving equipment, hydr.

Moving equipment for electro-hydraulic lift of the winding machine and for displacement by a hand draw bar.

• The moving equipment exists of the following parts:
• Fixed hand steering pole with hydraulically lifting jack and a polyamide wheel
• On the opposite side the machines are equipped with two hydraulically lifting and lowering polyamide wheels
• The retrofitting of this equipment is not possible
