Technique for cable laying and overhead line construction

• Energy cable laying up to 680 kV
• Fibre optic, mini and micro cables
• Cable winding and length measuring
• Overhead line construction up to 110 kV
• Seminars and product instructions

Manual cable length measuring devices

Manual cable and line length measuring devices with counter up to 9999.99 m. Accuracy ± 2.0 %. Figure height 7 mm. Laterally open for endless measuring of cables and conductors. Constant spring pressure and fine adjustment. Calibration and justification for this device is not possible due to the complexity.
