Technique for cable laying and overhead line construction

- Energy cable laying up to 680 kV
- Fibre optic, mini and micro cables
- Cable winding and length measuring
- Overhead line construction up to 110 kV
- Seminars and product instructions

Cable length measuring devices

Cable length measuring device, measuring wheel circumference of 500 mm, with counter up to 9999.99 m. Accuracy ± 1.0 %. Figure height 7 mm. Suitable for use in any positions, e.g. hanging on the cable, or as floor type. A spring ensures constant wheel pressure to cable. Calibration and justification for this device is not possible due to the complexity.
